## THE BARBADOS DOMICILE

Barbados continues to be recognized internationally as a preferred jurisdiction for foreign investment as evidenced by the increasing number of entities registering international businesses in Barbados. Its expanding network of Double Taxation Agreements (DTAs) and Bilateral Investment Treaties with countries across the globe add to its attractiveness. To date, Barbados has thirty-six (36) DTAs and over four thousand (4,000) registered international entities.

Barbados is a jurisdiction of high standards which places emphasis on competitiveness while offering clients predictability and security in their investments. It promotes an environment which encourages the establishment of businesses of substance and its extensive range of international financial services legislation allows investors the flexibility to create the types of corporate structures specifically suited to their needs. Barbados’ sound regulatory framework has led to consistently high world rankings for banking stability, transparency, human development and global competitiveness, to name a few.

Adding to the uniqueness of Barbados is the availability of intellectual and service resources onshore, which reduces cost and ensures continuity of personnel. The island’s infrastructure features modern telecommunications and information technology, with related disaster contingency capability, reliable local utilities and international air and sea ports.

This event will speak to the growing significance of Barbados as an international business hub and highlight how investing in Barbados can be a smart choice for investors engaged in international business.
